

No roads? No problem.

Only Crowley has the equipment and know-how to support your remote transportation needs on the North Slope.

Setting up an oil exploration platform and camp in the National Petroleum Reserve – where the average winter temperature is -63°F – is no small feat. Just ask our CATCO all-terrain vehicle team. Using our skills and heavy-hauling vehicles, we recently helped one company transport 638 loads of cargo over 75 miles of rough terrain and frozen tundra. We also assisted them in building ice pads and ice roads in and around their camp. Once the drilling platform was in place, we served as their main support system, taking care of everything from

bringing in supplies and locating parts for the rig, to handling crew rotation.

No one knows the North Slope like Crowley. After all, we've been working here for over 40 years, and we know exactly how to operate in this harsh environment. Plus, our CATCO vehicles are the only heavy-haulers certified by the state to travel over the delicate tundra during summer months. And they're the only off-road vehicles that can carry a payload of up to 85,000 lbs. No one knows how to handle remote transportation like Crowley. For your next project, call our Anchorage office at 907-257-2822. Or visit www.crowley.com.
