

# Why don't you *quickly* slip into something more efficient?

Whether you're looking to improve one aspect of your supply chain operation or for a completely new solution, you can kick back and relax with Crowley. Our *Speed to Market* reduces cycle time and inventory days for customers sourcing in nearby Central America or Western Caribbean. We've got everything retailers and manufacturers need. For instance, we provide inland trucking within Central America to transport piece goods to sewing plants and to deliver to ports. We have five distribution centers that offer services such as consolidation, sorting, pick & pack, relabeling, inventory management and warehousing. And we provide customs house brokerage services and freight forwarding. On the U.S. side, we operate two distribution centers with similar services. Plus we provide inland transportation here, too.

But that's not all. Since Crowley's the leader in ocean shipping for the apparel industry, our schedule is packed with more sailings than anyone else's and air freight service to and from key apparel markets throughout the region. And our equipment includes both GOH-ready containers for both ocean and air shipments. Put it all together – Central America's and the Western Caribbean's top-notch apparel manufacturers, proximity to the United States and Crowley's supply chain services – and you've got *Speed to Market*.

People who know Crowley know they can rest easy and that their goods will get to their final destination at the right time. For more information, call Don Hire at 770-935-6025 or visit [www.crowley.com](http://www.crowley.com).
