

Crowley Liner Org 023286 Tariff 002	Date Filed: 6/7/2018 Date Effective: 6/14/2018 Revision: Original Publishing Code: I
Rule Name: Shipper Loaded Flatrack Out of Gauge Cargo Penalty	

When Crowley quotes and/or files in-gauge shipper loaded flat rack rates (dims within the measurements of the flat rack), Crowley will measure the cargo upon receiving at the load port. If cargo dims exceed the dims of the flatrack, then a \$1000 Penalty charge will be imposed. This charge is applicable up to 12" out of gauge on the total Length x Width x Height. However, if the cargo exceeds the 12", then pricing will review and quote accordingly. This rule will be applicable only during the months of January thru August which is outside of Crowley's Peak Season. During Peak Season, all out of gauge flatracks will be reviewed by Pricing and rated according to the Peak Season rates.

*20' Flatrack
Inside Measurements L- 19' 5", W - 7' 10", H - 7' 4"*

*40' Flatrack
Inside Measurement L- 39' 6", W - 7'10", H - 6' 5"*
