

Bethel and the Kuskokwim Region

Crowley's Bethel facility provides storage for over 14 million gallons of petroleum products used to supply the people of Bethel as well as the villages of the Kuskokwim Region.

A Bethel based fleet of tugs and barges enable Crowley to deliver bulk and packaged petroleum products as well as general freight along the Kuskokwim River.

The Bethel Fuel and Marine Terminal serves as the regional logistics center for the staging of such deliveries to remote locations throughout the region, as well as the point of supply for truck delivery and packaged product requirements in Bethel.

For vehicle needs Crowley operates a self-service, 24-hour-a-day fuel station in Bethel that accepts standard credit cards and the Crowley Card; a proprietary card. Unleaded gasoline and Diesel fuel are available at this location.

At the Bethel Airport Crowley provides Into-Wing Aviation Refueling Monday through Friday from 8:00 a.m. to 5:00 p.m. and accepts standard credit cards as well as Avcard. Additional services hours are available for a call-out fee.
