Costa Rica X-RAY Scanning Surcharge

Effective 9/27/19, APM Terminals will implement a program that will result in x-ray scanning of containers. To address the cost associated with the x-ray scanning, Crowley will implement a Costa Rica X-Ray Scanning Surcharge of \$35 per container, subject to VAT on applicable commodities.

This charge will only be assessed when APM Terminals performs an X-Ray Scan of a container and issues the charge to Crowley. If APM Terminals bills this charge directly to the importer or exporter, Crowley will not assess this surcharge.
