

# Comprehensive European Logistics Services: American Warfighter and Allied Nation Support

As a U.S.-owned and operated marine solutions, transportation and logistics company, Crowley is one of the most diversified transportation companies in the world. We are a worldwide partner offering, flexible, scalable, and agile logistics solutions to the U.S. government and our allies across the globe. Our team includes members with decades of military planning experience, 25 of which are in USAREUR. Our innovative approach to solving logistical challenges through commercial best practices includes the ability to forecast and solve potential issues well before they become problematic. The Crowley team understands the unique set of challenges that come with planning and executing the movement of military forces across Europe and we stand ready to support your mission with a myriad of strategic solutions.
