

Crowley Liner Org 023286 Tariff 002	Date Filed: 03-15-2022	Date Effective: 04-14-2022	Rule #: 18.2	Revision: 13 Publishing Code: AC
Rule Name:	Vessel Fuel Surcharge: Between the US/Puerto Rico and the United States Virgin Islands			

UNITED STATES AND PUERTO RICO TO/FROM U.S.V.I.

Except as otherwise provided, all rates herein are subject to a Vessel Fuel Charge (VFS), Vessel Fuel Index (VFI), or Bunker Charge (BCH).

OCEAN FUEL CALCULATION METHODOLOGY:

TEMPORARILY APPLIED – 2 WEEK Review

Crowley will calculate the average of New York and Houston 0.1% Ultra Low Sulfur (MGO) fuel prices, equally weighted as published by [Ship and Bunker](#).

The average price will be calculated based on the daily price **for two-week periods**. If the average price is higher or lower than the current index tier average price, Crowley will adjust the fuel charge based on corresponding tier approximately thirty (30) days later.

Crowley will continue to monitor 0.1% Ultra Low Sulfur (MGO) fuel prices until a reliable 0.5% Low Sulfur fuel cost index is available, sufficient quantities are available and compatibility testing has been confirmed.

TEMPORARILY SUSPENDED – Monthly Review

Crowley will calculate the average of New York and Houston 0.1% Ultra Low Sulfur (MGO) fuel prices, equally weighted as published by [Ship and Bunker](#).

The average price will be calculated based on the daily price for each month. If the average price is higher or lower than the current index tier average price, Crowley will adjust the fuel charge based on corresponding tier approximately thirty (30) days later.

Crowley will continue to monitor 0.1% Ultra Low Sulfur (MGO) fuel prices until a reliable 0.5% Low Sulfur fuel cost index is available, sufficient quantities are available and compatibility testing has been confirmed.
