Rule Name:	Vessel Fuel Charges			

Except as otherwise provided, all rates herein are subject to a Vessel Fuel Charge (VFS), Vessel Fuel Index (VFI), or Bunker Charge (BCH).

- **Effective June 1, 2020**, Crowley will transition from the Vessel Fuel Index (VFI) and Vessel Fuel Surcharge (VFS) to a Bunker Charge (BCH). All new contracts and tariff rates effective June 1, 2020 will utilize this new Bunker Charge (BCH). Existing Contracts will be converted to the new BCH throughout the course of the year through amendments or renewals.
- **Effective April 1, 2019**, Crowley implemented a Vessel Fuel Index (VFI) on all new contract and tariff rates. For Open Tariff rates, this charge is effective from April 1, 2019 until May 31, 2020. For Contracts originally signed between April 1, 2019 and May 31, 2020, this charge is effective until the contract is converted to the BCH charge via renewal or amendment. For Contracts signed on or after June 1, 2020, the BCH Charge will apply.
- All open tariff rates filed **prior to April 1, 2019** and for all contracts effective prior to April 1, 2019, the Vessel Fuel Surcharge (VFS) will apply as outlined below. The VFS charge will be adjusted up/down by the same incremental increase or decrease as the VFI charge below.

METHODOLOGY: Crowley will use a combination and weighting of MGO and VLSFO fuel prices as published by [Ship and Bunker](#). This averaged and weighted fuel price will be used with the index table in this rule to determine fuel charges. If the average price is higher or lower than the current index tier average price, Crowley will adjust the fuel charge based on corresponding tier a minimum thirty (30) days later.
