## CONSTRUCTION MANAGEMENT

Your Trusted Partner  
in Vessel Construction,  
Retrofit, and Repower

At Crowley, we understand that every vessel project, whether new construction, retrofit, or repower, requires meticulous attention to detail, strict adherence to safety standards, and seamless coordination across teams and shipyards. Our construction management services offer comprehensive oversight through every phase, ensuring on-time delivery and top-tier quality.

## WHY CHOOSE CROWLEY FOR CONSTRUCTION MANAGEMENT?

### Unmatched Expertise:

Our construction management team brings years of experience overseeing vessel builds, retrofits, and repower. Crowley's team of seasoned experts, including former shipyard managers, engineers, and inspectors, ensures that your project is handled with precision and expertise at every stage.

### Proactive Approach:

We don't just oversee your vessel's build, we ensure that each stage progresses smoothly by identifying and resolving potential issues before they impact timelines or quality. Our proactive management prevents delays and protects the project's integrity.

### Quality & Safety Commitment:

Safety is at the core of everything we do. Our on-site managers are dedicated to maintaining the highest safety standards, ensuring that every vessel meets regulatory requirements and is built to perform under the most demanding conditions.

## OUR CONSTRUCTION MANAGEMENT SERVICES INCLUDE:

### Comprehensive Project Management:

From contract negotiation to final delivery, we manage every aspect of the vessel construction process, ensuring that your project stays on track and within budget.

### On-Site Construction Management:

Our team is embedded at the shipyard, offering real-time oversight and managing daily operations, ensuring your vessel is built exactly to spec.

### Contract Negotiation & Shipyard Selection:

Leveraging our extensive experience, we assist in negotiating fair contracts and selecting the best shipyard to meet your needs, setting the stage for project success.

### Quality Control & Inspections:

We conduct detailed inspections and quality assurance checks throughout the project lifecycle, working closely with both the shipyard and regulatory agencies to ensure all standards are met.

### Vessel Design & Engineering Support:

Crowley's in-house team of engineers and naval architects work in tandem with construction managers to bring your vessel's design to life, ensuring optimal performance and functionality.
