The intermodal fuel surcharge will be applicable to all open tariff and contract inland moves via any US port. It is based on the [DOE Monthly Retail On-Highway Diesel Fuel Prices: Monthly All Types - U.S. No 2 Diesel Retail Prices](#) (Dollars per Gallon including all taxes) Index and the Crowley Intermodal Fuel Surcharge Table.

Crowley will calculate the average of each month. If the average price is higher or lower than the current index tier average price, Crowley will adjust the fuel charge based on corresponding tier approximately thirty (30) days later.
