Rule Name:	Intermodal Fuel Surcharge			

The intermodal fuel surcharge applies to all open tariff and contract inland moves via any US port. It is derived from the [DOE Monthly Retail U.S. On-Highway Diesel Fuel Prices](#) (Monthly – All Types – U.S. No 2 Diesel, Dollars per Gallon including all taxes) and the Crowley Intermodal Fuel Surcharge Table.

Crowley will calculate a three-month average (as outlined in the table below). If this average falls above or below the current index tier's reference price, the fuel surcharge will be adjusted to the corresponding tier. Any adjustment will take effect approximately thirty (30) days after the review period concludes.
