<b>Rule Name:</b>	<b>Vessel Fuel Surcharge</b>			

## METHODOLOGY

Crowley will determine fuel charges using a weighted combination of MGO and VLSFO fuel prices as published by [Ship and Bunker](#). The weighted average fuel price for the three-month review period (as outlined in the table below) will be applied to the index table in this rule to establish the applicable fuel charge.

Crowley will calculate a three-month average (as outlined in the table below). If this average falls above or below the current index tier's reference price, the fuel surcharge will be adjusted to the corresponding tier. Any adjustment will take effect approximately thirty (30) days after the review period concludes.
