Rule Name: DETERMINATION OF MEASUREMENTS	Date Effective 6/14/18
	Revision: Original Publishing Code: I
<p>To allow the carrier to determine application of measurements as outlined herein, the shipper shall insert on shipping documents the actual measurements for each different size, piece, package or unit of freight, tendered for shipment. In the absence of shipper furnishing carrier the cubic measurement of freight loaded in trailer, 100% of the cubic capacity of the trailer will be used for rating purposes on cargo freighted on measurement basis.</p>
