

Crowley Liner Org 023286 Tariff 002	Date Filed: 6/7/18
Rule Name: FUMIGATED, POISONOUS, TRAILERS	Date Effective 6/14/18
	Revision: Original Publishing Code: I
<p>Trailers containing lading which has been fumigated or treated with poisonous liquid, solid or gas, must be placarded by shipper on each door with placards 10" x 8", red lettering on white cardboard reading:</p> <p>"DANGER - The lading on this car has been fumigated or treated with _____ (Name of poisonous liquid, solid or gas). Before unloading, open both doors and DO NOT ENTER until car is free of gas. REMOVE ALL POISONOUS MATERIAL before release of empty car."</p> <p>It will be the responsibility of consignee to thoroughly check containers after unloading cargo to remove all traces of poisonous materials or fumigate remnants within the container prior to returning it to carrier.</p>
