<p>(Applies only in connection with rates on TT basis).</p> <p>Except as provided in NOTE 1 below, when a shipment is loaded by shipper or his agent into two or more trailers, each trailer in the shipment will be considered as a separate shipment for the purpose of applying Trailer-load (TL) rates and minimums.</p> <p>On Northbound shipments to Ports listed in Origin/Destination Location Groups, when shipments exceed the quantity that can be loaded into or onto one trailer, the following will apply: (See NOTE 3)</p> <p>1. When two or more trailers are required for a single shipment, charges will be assessed on the actual weight or measurement but not less than the minimum weight or measurement governing the applicable rate and such minimum will be applicable to each trailer used (See NOTE 1 below) except that the last trailer (the trailer carrying the least weight or measurement) will be charged for at the same rate on the actual weight or measurement loaded thereon.
