Alternate Service Levels Carrier Specific Rates

Different levels of service are offered by the Carrier as defined below. Unless otherwise specified in the individual rate item, rates are applicable for "Regular Service."

Regular - Shipper accepts service as provided by the carrier on a regular basis as per carrier's advertised sailing schedules. Carrier may utilize any underlying ocean, motor, rail or air carrier, at its sole option. Regular service rates are shown in this tariff, unless otherwise specified.

Carrier Specific - Shipper/Consignee requests Carrier-Specific service, and Carrier provides a freight rate for service applicable only when a specifically named ocean carrier is used. Rates applicable to Carrier-Specific service will be noted in the individual tariff rate items with the name of the underlying ocean carrier. Shipper/Consignee must request Carrier-Specific service at the time of shipment, or Shipper/Consignee must instruct carrier to provide Carrier-Specific service for all shipments of specific tariff line items.
